Lucy is our pride and joy. She is an AKC purebred golden retriever known by many local adults and children for her gentleness, calm demeanor, and loving nature. Lucy is an accomplished retriever: she has received several awards and recognition for her service work in providing Animal-Assisted Therapy to local University students. Lucy has a great "off-switch", which makes her a wonderful companion and overall family dog. Children and puppies are her absolute favorite! Her favorite activities include snuggling on the couch and going for long walks in the woods.
